

MATHSHUBS

NORTH NORTH WEST

Secondary Maths MAT Leads

What is involved?

- **The programme is now in its second year. The programme will provide a bespoke offer for both returning participants and new participants joining the programme.**
- **The programme supports those who lead maths across multiple schools within a MAT.**
- **Participants will also develop their role as a leader of system change, curriculum change and teacher professional development.**

Who can take part?

- This programme is designed for state-funded secondary schools in England.
- The project is for those who lead maths across multiple schools within a MAT, including at least one secondary school.
- To better engage in the programme, participants are encouraged to have at least one secondary school in a Secondary Teaching for Mastery Work Group. However, this is not essential.

What will you learn?

- You will promote and develop a shared vision, culture for effective teaching and learning in maths.
- You will work with subject leaders across your MAT to lead and manage maths teaching effectively and to develop teaching for mastery approaches within your own department.
- You will understand the leadership and management skills required to effectively promote and develop teaching for mastery approaches within your schools.
- You will understand effective models of maths teachers professional development, the rationale for using them, and evidence that supports them.

How much will it cost us?

There is no charge from the Maths Hubs for participation in the programme. (It's free!)

Working with
NCETM

NATIONAL CENTRE FOR EXCELLENCE
IN THE TEACHING OF MATHEMATICS

MATHSHUBS

NORTH NORTH WEST

Benefits

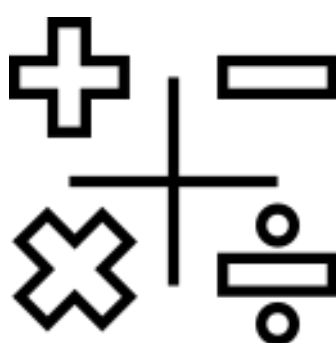

Developing pedagogy associated with teaching for mastery

Extending leadership skills to effectively develop departments

Confidence to create a coherent and connected curriculum

Building collaborative professional networks

What approach is used? The programme is designed to be delivered through three one-day face-to-face national workshops. Within these, the sessions will be split to offer bespoke sessions for new participants and those who are returning for a second year. Some sessions will be for everyone. You will also be encouraged to put theory into practice reflecting on your own initiatives.

What time commitments are there? The programme will be delivered across the equivalent of four days. You should also allow for planning and evaluation time.
