

# MATHSHUBS

NORTH NORTH WEST

## Strengthening Partnerships with ITT Providers

### What is involved?

**This project aims to form an established group of ITT representatives across the sector who are committed to developing communities of practice in order to review and evolve their provision.**

### Who can take part?

- Lead participants in this programme will be from the ITT community.
- You should be directly involved in ITT with a responsibility for maths.
- You will represent the various ITT across the hub region so may include HEI, SCITT and School Direct, and represent different phases of ITT including EYTS, QTS (primary and secondary), and post-16.

### What will you learn?

You and those responsible for maths provision at your institution will review your practice and programme.

You and those responsible for maths provision at your institution will aim to ensure trainees have some understanding of designing lessons by mastery principles.

Maths Hub leaders will have a dynamic awareness of the local needs of ECTs and schools

Maths Hub leaders will ensure there is regular opportunity for collaboration and professional discussion of practices across ITT providers and that this dialogue informs hub work.

IN THE TEACHING OF MATHEMATICS

## Benefits

**Developing of robust ITT provision**

**Building students thinking skills and strategies**

**Continuing reflective practice**

**Improving students pedagogical knowledge**

**Networking and training opportunities**

**What approach is used?** Any work undertaken will be in conjunction with the leaders of maths provision in ITT institutions, to strengthen the partnership and agree actions that will support the deepening of understanding of teaching for mastery for ITT trainees at an award level. Activity may include working across hub boundaries and collaborating in larger regions.

**How much will it cost us?** There is no charge from the Maths Hubs for participation in the programme. (It's free!)

### **Where can I find out more information?**
