## IMPROVING LONG-TERM OUTCOMES FOR GIRLS IN MATHEMATICS AND SCIENCE

### ABOUT THE DAY:

[www.nnwmathhub.org.uk](http://www.nnwmathhub.org.uk)

Come and engage with a mathematical project that can be used in the classroom to support girls to develop strong mathematical skills. We shall focus on key areas of strength: communication and collaboration and use these to support a key area for development: spatial awareness

We will take a brief look at the background to girls attainment in the UK and internationally. Followed by a discussion about why this is important, considering the strengths and weaknesses of girls and the implications for the classroom.

### ABOUT US:

Helen Madeley: NNW Maths Hub Lead and Lecturer in Mathematics Education at the University of Cumbria

Louise Hoskyns-Staples: Independent maths education consultant

### EVENT INFORMATION:
