# Secondary Mastery Specialist Programme

Mastery Specialists are classroom-based practitioners who develop expertise in mastery and in leading maths-specific professional development

## What is involved?

The Secondary Mastery Specialist Programme enables secondary maths teachers to become experts in teaching for mastery, so they in turn can develop maths departments that are well-led, high-performing, and provide high-quality professional development through collaborative working.

Over a minimum of three years, participants first work on their own understanding and practice, then with their own department, then with other departments as a local leader of mathematics education (LLME) for their Maths Hub.

## Who can take part?

Any teacher (excluding ECTs) who is teaching maths in a state-funded secondary school and who wishes to develop both their own classroom practice and their skills in leading professional development with others can apply to become a Secondary Mastery Specialist.

### Find out more

Search **secondary mastery specialist programme** online or contact your local Maths Hub:

[www.nnwmathshub.org.uk/get-involved/projects/](http://www.nnwmathshub.org.uk/get-involved/projects/)

## Benefits

- Your students will develop a deep, secure and connected understanding of the maths they are learning
- You will develop and refine your classroom practice in line with the principles of teaching for mastery
- Your colleagues will, over time, begin to develop teaching for mastery approaches
- Your department will have a clear understanding of the leadership and management support required to develop teaching for mastery

The **programme** is fully funded by the Maths Hubs Programme, so is **free** to participating schools.
