Secondary Teaching for Mastery

Sustaining Work Groups

A vibrant professional learning community to reflect upon and develop mastery approaches

What is involved?

This project is for departments who have previously participated in Development Work Groups. While the Mastery Advocates from these departments will be significant members of the Work Group, the whole department is a member of this professional learning community.

Each Work Group will have a focus for the year. The foci for 2024/25 are: developing mathematical thinking; developing mathematical coherence for learners across maths and science; and a bespoke teaching for mastery focus. New for this year is a fourth focus on **developing fluency with multiplicative reasoning in Key Stage 3**.

Who can take part?

These Work Groups are for all departments that have previously participated in Mastery Development Work Groups and all Cohort 1-7 Mastery Specialist Departments. The two lead participants continue to be Advocates who have participated in a Development Work Group and key teachers from a Mastery Specialist's department, but particular Work Group sessions may sometimes be joined by participants' departmental colleagues.

Find out more

Search **sustaining secondary mastery** online or contact your local Maths Hub:

www.nnwmathshub.org.uk/get-involved/projects/

Benefits

- Your students will develop a deep, secure and connected understanding of the maths they are learning
- You will continue to develop teaching for mastery approaches consistently across your department
- You and your department will collaborate to create a coherent curriculum in a culture of professional learning
- You will develop and implement a coherent and ambitious sustained development plan

The **Work Groups** are fully funded by the Maths Hubs Programme, so are **free** to participating schools.
